14 Mount Stuart Road Mount Stuart TAS

3  2 

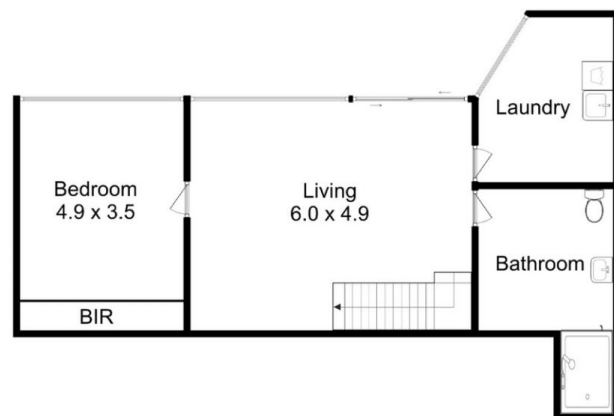

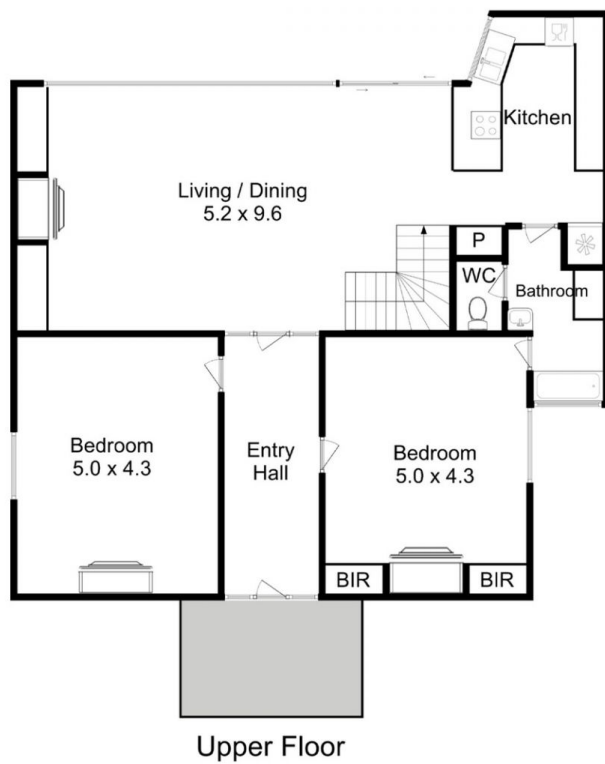

Don't be fooled by the unassuming appearance of this charming 1880's cottage for she has turned her back on the street for the glorious lights and sights of the city below. You may be confused as the back is the front and the front the back, but once inside it will all make sense.

The wide entrance hall opens up to the main living space which has floor to ceiling windows, flooding the room with natural light and filling your vision with sky, river and city. Boasting some original features, such as convict bricks, timber floors, and open fireplaces, the home has been upgraded with mains gas for hot water and heating. A few more improvements and this gem will really shine. Currently tenanted on a month by month agreement the option is yours to move in, polish it up to make it your own or keep the tenants happily in place.
